Nome: INTRODUCTION TO ACADEMIC WRITING IN ENGLISH

Objetivos

To write a research paper in English.

Ementa

Telling people about research is just as important as doing it. But many researchers, who are competent scientists in all other respects, are afraid of writing. They are wary of the unwritten rules, the unspoken dogma and the inexplicably complex style, all of which seem to pervade conventional thinking about scientific writing. Thus, this course was designed to help graduate students with their academic writing in English.
